Andrew Monjan to Address Inaugural Meeting of the American Society of Geriatric Otolaryngology-Head and Neck Surgery April 25th 2007 in San Diego

Andrew Monjan, Chief of the Neurobiology of Aging Branch within the National Institute on Aging will deliver the Keynote Address at the inaugural meeting of the **American Society of Geriatric Otolaryngology-Head and Neck Surgery** at the Manchester Hyatt Hotel in San Diego on the afternoon of April 25th, 2007, (immediately prior to the annual Combined Spring Meetings). Dr Monjan directs the agency's intra- and extramural research programs that address the aging brain and the underlying cellular and molecular processes. He has worked at the NIA since 1985 and has also served as the Executive Secretary of the National Commission on Sleep Disorders Research. His address, entitled ***Aging: Growing Healthy***, will be delivered at 1:20 PM on July 25th. The program will also include presentations on disorders of voice, swallowing, hearing, and balance in the elderly. View the program, register for the meeting, and join as a Charter Member for \$100 at www.geriatricotolaryngology.org.
